## TO YOUR NEW ELECTIVES BROCHURE

Tytherington Electives is a programme of activities that fulfils our ambition to provide 'extra' provision for our students at Tytherington School. These Electives are in addition to our existing range of extra-curricular provision which will continue to run throughout the week.

**It is expected that all students in Years 7 and 8 take part in the Electives Programme.**

During the term, we promote Electives through assemblies, form time and the Electives area of the school website. A selection form will be sent electronically to parents to make the choices with their son/daughter for the term. Students select one Elective before the start of each rotation; Summer and after February half-term.

**Some Electives are run by external providers and require fees; these will be paid via the Parent Pay System. Payment for the term needs to be made before the Electives start.**

Some Electives may not run if there is insufficient interest. For students in receipt of free school meals or Pupil Premium, financial support is available.

This booklet contains the details of the programme. Further information that comes up will be available through the school website:
