## Student Device Provision Programme

Tytherington School are committed to providing the best learning experience for our students, and preparing them for the wider world outside of school. We strongly believe that this means providing students with access to technology. Using 1:1 devices allows us to deliver high quality learning for our students. We know that making an investment in technology isn't always possible, and when technology is available at home, it may not be suitable to bring into school, in case of issues with security and compatibility. In order to provide seamless access to technology, we have partnered with Freedom Tech to launch the Tech 4 Learners 1:1 device programme.

It is our vision and determination that every child will have access to affordable, high quality devices which they can use in lessons and at home. Using IT safely and effectively is an essential part of everyday life for our students and we are committed to equipping them with these skills for life.

We are passionate about ensuring that all our students can have full access to this provision and would strongly encourage you to consider joining the programme.

Tech 4 Learners is a 1:1 parental contribution programme for schools run by financial solutions provider and educational specialists Freedom Tech. Freedom Tech have over 10 years of experience running hundreds of successful programmes in schools and multi-academy trusts across the country. They have a strong background in education and partner with leading manufacturers and resellers in education technology. They are financially stable and wholly owned by CSI Leasing, one of the world's largest leasing companies with over \$1.6 billion in assets.
